SUBJECT: D.E.R. INSPECTION

The following information should be useful in your correspondence with the D.E.R.

1. Recycling of waste "Gensolv" took place on September 2, 1987 and on August 4, 1988. Engov Ltd. was the recycler on both occasions. The following is a breakdown of the amounts recovered on both occasions.

Date Recycled	September 1987	August 1988
Gallons recycled	152	120
Gallons recovered	129.25	77

Copies of Engov Ltd.'s On Site Recovery Log are attached.

2. On November 7, 1986 purchase order T9595 was issued to cover the Safety-Kleen Corp., installation fee. Copies are attached of all Safety-Kleen invoices acquired from that date until the present time.

If you have any questions, please do not hesitate to contact me.

Subject: D.E.R. INSPECTION

.....

On January 26, 1989 the Pa. Department of Environmental Resources (D.E.R.) Bureau of Waste Management conducted an inspection of ISC Technologies, 3050 Hempland Road location. The official report (see attachment) requests that ISCT take certain actions and forward documentation to the Bureau concerning our hazardous wastes. As a result, I am asking each of you to take the time necessary to provide me with the following information relevant to your areas of responsibility.

ACTION ITEM	INDIVIDUAL RESPONSIBLE
1. Please provide all records (P.O.'s, rec. tickets, receipts, etc.) involving the transportation and/or recycling of "GENESOLV".	R. Bollinger
2. Please provide all <u>Safety Kleen</u> receipts for waste generated in the pel-lab.	R. Mathie
3. A copy of the hazardous waste determination or technical data indicating that the Isofoam <u>waste</u> is <u>not</u> hazardous.	S. Banks
4. <u>Correct</u> labeling of all hazardous wastes onsite.	T. Good
